

Credence

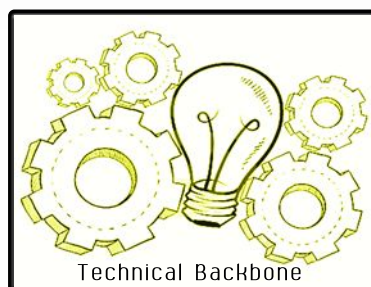

Management Corporation

- FROM CONCEPTION TO COMPLETION

ENGINEERING PLASTIC COMPONENTS

MEDICAL DEVICES

Profile

Credence Management Corporation is a Technical Project Management and Execution firm, backed by qualified and experienced professionals, that offers a complete range of customized technical solution for Engineering Plastic component user / manufacturer, and other companies allied to Plastic Industry

One of our key competencies is to take an idea through concept to engineering drawing, prototypes, tool design, validation and manufacture of quality components and assemblies.

What we do?

- We become your technical resource at demand and are available at your service to provide equitable assistance.
- We act as your representative for the project to provide inputs, evaluate data and offer solutions for the product design, Mold Mfg. and Operational Process within given time frame with application of knowledge, skills, tools and advanced techniques.
- We derive process specifications through Scientific evaluations, to procure parts and assemblies of consistent quality.
- We facilitate the process of project portfolio managements by identifying, prioritizing, and authorizing resources.
- We manage and control customers' projects proficiently to ease achievement of their strategic business objectives.
- We identify and define challenges and opportunities specific to customer's project that helps team to work smarter and efficiently move forward.
- We boost proficiency level of your team as per latest and upcoming technology to achieve operational targets.
- We do take responsibility of accomplishing continual and efficient output of the project by providing uninterrupted service throughout the product and project life cycle.

Services

Years of knowledge and tooling experience in Plastics Industry combined with the latest technological advancements enables us to provide you with most cost-effective and efficient solutions. We opt systematic approach for providing various services like,

PRODUCT DEVELOPMENT & REALISATION

- Product Design & Development
- Design for manufacturability
- Material Optimisation
- Engineering Design
- Tolerance Stack Analysis
- Prototyping

TOOLING DEVELOPMENT & VALIDATION

- Mold Filling Analysis services
- Mold Cooling Analysis services
- Prototype Tooling
- DOE
- Production Tooling
- Onsite Product & Mold Qualification

INJECTION MOLDING CONTRACTS

- Selection of Machinery and equipment
- Molding Optimisation Process (SIM)
- Assembly line set up
- Gauge Design & Development
- Packaging Development
- Establishing Maintenance system

PRODUCTIVITY ENHANCEMENT

- System Controls
- SPC,CpK & Data Analysis
- Operational Excellence

OTHER SERVICES/VALUE ADDITION

- Metal to plastic conversion
- Plant Automation
- Reliability & Risk Analysis
- Troubleshooting Quality problems
- Cost Reduction
- ISO, Lean, 5s, TQM, TPM, Kaizen
- CE and other regulatory compliance
- Technology Transfer & Up gradation
- Tool Maintenance Program
- Trainings
- Turnkey Projects

What does all this mean for you?

From Conception to completion, our experts work as your extended team, step by step and deliver total plastic product excellence by

- Being accountable for all project deliverables
- Reducing development tenure upto 20%
- Optimising Development Cost
- Enabling you produce world class quality components

**WE TAKE CHALLENGE TO SOLVE YOUR INJECTION MOLDING PROBLEM
IN SCIENTIFIC WAY**

PROJECT PLANNING

PROJECT CONTROL PRODUCT DEVELOPMENT

PRODUCT DESIGN

DESIGN FOR MANUFACTURABILITY

MOLD COOLING ANALYSIS SERVICE

MOLDING SOLUTION

MATERIAL SELECTION

MOLD FILLING ANALYSIS SERVICE

PRODUCTION TOOLING

PLANT LAYOUT

CAPACITY AND RESOURCE CALCULATION

MOLDING OPTIMISATION PROCESS

SELECTION OF MACHINERY AND EQUIPMENT

GAUGE DESIGN & DEVELOPMENT

PACKAGING DEVELOPMENT

PROTOTYPING

AUTOMATION AND PROCESS VALIDATION

VALUE ADDED SERVICE

CONSISTENCY

PRODUCTIVITY IMPROVEMENT

TESTING

WE CATER,

WHOEVER HAS TECHNICAL HITCH IN PLASTICS PRODUCT PROJECT

OEM'S LOOKING FOR TROUBLE FREE COMPLETION OF PLASTICS PROJECT

COMPANIE LOOKING FOR EXCELLENCE IN ENGINEERING PLASTICS PRODUCT

CORPORATE OFFICE

311, Atlantis, Sarabhai Campus, Vadodara - 390 007, India.
